

Comic Cover — Title, Logo and Focal Zones

LOGO / MASTHEAD

FOCAL AREA — keep the character inside the dashed safe line

TITLE / CREDITS

The image shows a vertical rectangular template for a comic book cover. It features a solid black outer border. Inside this border is a large dashed rectangular frame. Within this dashed frame, there are three specific zones marked by smaller dashed rectangles: a 'LOGO / MASTHEAD' zone at the top, a large 'FOCAL AREA' in the center, and a 'TITLE / CREDITS' zone at the bottom. The focal area is defined by a dashed line that is inset from the main dashed frame, leaving a margin around it.
